Projects

01/07/2020 – 01/09/2022

● **UniBot** University Bot written in JS and posted on Discord created to provide information about classes and how to take them remotely in an automated and centralized manner.

Over time it has been updated to provide additional information pertaining to the university sphere such as: Professors' emails, Schedule of lectures, Links to lecturers' handouts, University cafeteria menus, and more.

Used daily by more than 100 students, it was discontinued at the beginning of the 22/23 school year given the resumption of in-person classes
